Primary Care Leadership Collaboratives Application Form

Be part of this exciting development opportunity, enabling people from across different professions within Primary Care in the East of England to enhance their leadership and improvement skills.

Are you passionate about improving the quality of care, service transformation and innovation across the wider system?

Are you already working and leading collaboratively across professions, organisations or networks to ensure better outcomes for patients?

eoleadership.hee.nhs.uk

Section 1: Introduction

Great health care needs great leaders and leadership from across the system. [The Long Term Plan \(2019\)](#) and [The NHS Five Year Forward View \(2014\)](#) set out this vision of breaking down organisational and professional barriers to ensure people receive seamless care. In aspiration and in design, the Primary Care Leadership Collaboratives (PCLC) reflects and capitalises on the opportunities presented to the system by the vision articulated in the Long Term Plan, in particular around integrated care and other new models of service delivery aligned to the development of [Primary Care Networks](#).

Applicants for the PCLC will already have some leadership experience commensurate with their role. By leadership we don't necessarily mean formal team leadership, rather leading in the context of the shared initiative.

What are Primary Care Leadership Collaboratives?

The Primary Care Leadership Collaboratives are designed to support local teams in developing leadership capabilities in each of the east of England [Integrated Care Systems](#) and [Sustainability and Transformation Partnerships \(STPs\)](#).

We are seeking up to twelve collaboratives in total, likely to be a practice manager, practice nurse and GP/GDP but potentially including other senior colleagues in practices, primary care networks and other local organisations. Individual practices or PCN can form their own collaborative to attend and could use the programme to develop a quality improvement initiative within their practice. We anticipate each collaborative will already be working together to improve health and health outcomes for their local population and communities. Our goal is to enable improvement, integration and innovation across ICS/STPs through the collaboratives, sharing a common purpose and vision of primary care and future outcomes for communities.

Cost

Please note that each place represents an investment of £1,000.

This programme requires full attendance over a series of impact days and should be fully supported by your line manager as part of your PDP. Inability to attend all days will have an impact on both personal development and programme delivery

Application Form

Only one application form is necessary per collaborative so in the first instance the collaborative should nominate a lead representative for administrative purposes.

Each collaborative will usually have 3 members but could have up to 5.

The lead representative has the responsibility to ensure the application form is filled out on behalf of others in the collaborative.

It is also advisable that you contact your Primary Care Team representative to discuss suitability of your collaborative and its shared initiative.

Please submit the completed application form on behalf of you and the collaborative electronically by **10.00am on Monday 9th September 2019** and send to : leadership.eoe@hee.nhs.uk

If you need any specific support in completing the application form by the deadline please let us know by contacting us at: leadership.eoe@hee.nhs.uk

N.B. Before completing the application please check that you and the collaborative can be available for all 3 dates in Section 3.

Successful collaboratives will be notified by 5pm on Monday 16th September 2019.

Section 1: Personal details

Which Sustainable Transformation Partnership (STP) /Integrated Care System (ICS) is your collaborative working within?

- Cambridgeshire and Peterborough STP
- Hertfordshire and West Essex STP
- Mid and South Essex STP
- Bedford, Luton and Milton Keynes ICS/STP
- Norfolk and Waveney STP
- Suffolk and North East Essex ICS/STP

Impact day dates: Wednesday 16th October 2019, Wednesday 11th December 2019, Wednesday 29th January 2020

We confirm that we have organisational agreement to attend all impact days.

About the collaboratives initiative of improving health and health outcomes for communities

Health Education England and the East of England Leadership Academy are committed to improving health and health outcomes for communities. The opportunity presented to the system by the vision set out in the Long Term Plan and the NHS Five Year Forward View relies on working together across primary care and professions. Each applicant on PCLC will be supported individually and collectively to ensure that the collaboratives' shared initiative and purpose is enabled and developed to achieve its potential to improve health and health outcomes for the local population and communities.

Please tell us what priorities the initiative supports delivery of (these may be specific to your STP):

The collaboratives' initiative supports delivery of the following:

Section 2: Supporting evidence

In this section we ask you to provide further information about the work you are currently working on and why you are all applying to take part in PCLC.

Please give full and specific answers which demonstrate how participation in PCLC will benefit you, the collaborative, your organisation and Primary Care Network, as well as the community.

Please complete the following questions in the boxes provided.

1. Please describe:

- a) The nature of the joint work you are undertaking together**
- b) Your roles within that joint work**

2. Please outline what the collaborative will bring to PCLC in terms of skills, knowledge and behaviours. Please provide the collective view.

3. What does your collaborative hope to gain from the PCLC:

- a) As individuals within the collaborative for the benefit of patients**
- b) For the local Primary Care Network and system**

In this section please be as specific as possible about learning objectives, what successful delivery will look like and any other benefits there will be personally, for the collaborative and for the organisation(s) that you work in as well as the local system.

Empty response area for question 3.

4. If you achieve your goals, what tangible outcomes will be evident?

- a) For the organisation you represent?**
- b) For the local network and system?**

Empty response area for question 4.
