Truly authentic leadership is a journey and these online modules will enable you to support that journey to truly realise your potential.

Our **10 Systems and Relational Leadership** modules are for leaders in health and care looking to learn more about leading and working collaboratively across boundaries. The modules include links to practical tools and approaches, as well as opportunities for more in depth study and learning.

- Introduction to systems
- Collaborations - what makes them tick
- Collaboration - keys to success
- Complicated or complex?
- Agile project working
- Working with complexity
- Leading in complexity
- Working with tensions
- Stuckness - tools for shifting patterns
- System leadership: in their own words

Our **Leading Transformation for Integrated Care** series explores what partnership working looks like across teams and organisations and what this means for leaders. The aim is to enhance participants' capability to think and act as leaders within systems. The series of modules is for anyone involved in organisation development, change and transformation work in health and care systems across England.

- Who leads in a system?
- Improving the health of our local communities
- Leading alongside your local communities
- Rethinking recovery - a systems perspective
- Collaborating within your neighbourhood/ place
- System Workforce innovation

*Coming soon: **Leading Transformation in Primary Care***
