

Primary Care Leadership Collaboratives

As part of the support to the Primary Care Leadership Collaborative, we are able to offer and encourage undertaking the Healthcare Leadership Model 360 process.

To undertake your own 360, you'll first need to create an account with the NHS Leadership Academy by clicking here: <https://nhsx.uk/register>

You should then receive an e-mail from the Leadership Academy with your Academy ID/Username and your Password (this can take a little while).

Once logged in, under My Programmes, click "*Register Online*" under Healthcare Leadership Model and fill in the short personal information form. You should then be directed to the Healthcare Leadership Model Appraisal Hub.

Once in the hub, click "*Start, continue or view a questionnaire for yourself*" and create a new questionnaire. When prompted, click "*Pay by purchase order*" and enter the Purchase Order number **307044570** and under Organisation name search and select **Health Education England** (the address will show Wakefield, which is our invoicing address) and select "*Purchase Now*".

You should then be able to create and access your 360.

The Academy website has also been updated with further details on how to get started and what users can expect from the process; please [check here](#) for self-assessment related information, or [here](#) for 360 degree feedback related information.

If you have any problems, please contact 360 support on 360.Support@jcaglobal.com.

Kind Regards,

East of England Leadership Academy

I would highly recommend completing the HLM 360, as it either confirms or challenges your beliefs about yourself and directs you to do something about it.

The 360 feedback was useful in understanding my strengths, identifying areas for improvement, hidden talents and risks. It definitely helped to boost my confidence.
