

We will be repeating the same content across the 3 dates so please only book a place on one session. The sessions will be delivered virtually over Zoom.

Wednesday 23 November 9:00 - 11:00am

Wednesday 30 November 1:00 - 3:00pm

Thursday 1 December 3:00 - 5:00pm

This is a new network, working to create a self-sustaining community for senior leaders across the East of England region.

The structure of these sessions will enable leaders to recognise progress and successes and share practice with those they don't regularly work with. There is exciting emergent work across the region and this will be a space to share good practice and celebrate the progress being made in integrated systems.

Hayley Lever, CEO, Greater Sport Manchester

We will commence the programme with Hayley Lever, CEO of Greater Sport Manchester, who will bring her experience of working across organisational boundaries to deliver against the aspirational goal of 'getting Manchester moving'.

As the Executive Lead for Greater Manchester Moving, Hayley's work is located in the devolved and integrated system under the leadership of the Mayor, Andy Burnham. Working as the CEO of Greater Sport, she enables the organisation to work as distributed leaders delivering the system wide GM Moving plan.

Read more about Hayley's work: Leadership, Learning and Life
www.gmmoving.co.uk

We hope to attract leaders from across all organisations working in the footprint of the East of England region so please share this invitation to any peers who may be interested.

Programme Offer

This new offer will commence this Autumn, with a plan to run the offer with further inspirational leaders in the New Year. Outputs from the session will be digitally curated so that practice can be captured and shared across the region. We ask that you come to learn and be curious, together.

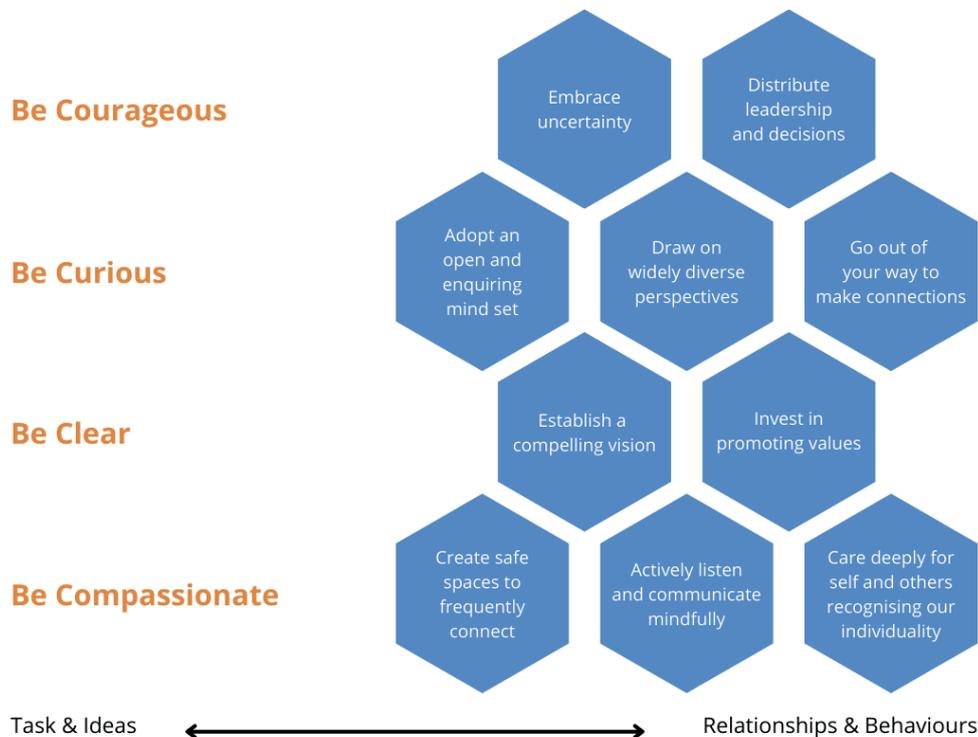

Session Structure

First hour - Hayley Lever

Sharing her insights on the complexities of developing a system mindset whilst working within organisational boundaries.

Second hour - Leadership Circle using the 4C model for system leadership

Systems Leadership Framework
